## Year 6

Welcome to our lesson by lesson overview for 2020-21. This has been designed to give schools a clear progression to follow in case a blended learning approach is needed.

We have taken into account potential lost learning during the lockdown period by adding in recap lessons. These are indicated with $a$

Each lesson will link to a video tutorial produced by one of our maths specialists which can be used in a variety of ways:
$\checkmark$ at home if classes, local areas or everyone goes into lockdown
$\checkmark$ in small groups during intervention sessions
$\checkmark \quad$ with TAs or learning assistants, particularly with mixed age classes
$\checkmark$ on tablets to promote independent learning.
All the videos are freely available and most of them are linked to a worksheet that will be available through the premium website. We will also make the non-voiced over PowerPoint version of the video available to use as a front of class teaching tool.

For those lessons that say 'activity', the activity will be explained through the video. You will notice that some lessons are repeated. This happens with some key concepts as children may need more time to embed their learning.

| Monday | Subtraction - finding the difference | NF-1 AS-2 |
| :--- | :--- | :--- |
| Tuesday | Subtraction - finding the difference | NF-1 AS-2 |

We have linked our lessons to the DFE ready to progress criteria to help you plan and see where to prioritise learning. You can find the full guidance document here which includes the meanings of each code.

Release dates - our videos and front of class PowerPoints will be released over the year in line with this progression. We recommend, if you are using this, to use the dates we have provide.
